

# Roofinox Matador

The strongest roof and facade panel in the world.

Opting for matador roof and facade panels ensures your benefits from longevity and maximum strength.

In 60 years, your roof will protect you from more than 50.000 litres of rainwater, 120.000 hours of sunshine as well as:

- |                            |                      |                    |
|----------------------------|----------------------|--------------------|
| _____ Hail                 | _____ Heat           | _____ Extreme cold |
| _____ Storm and wind gusts | _____ UV radiation   | _____ Wind suction |
| _____ Heavy rain           | _____ Gritting salts | _____ Snow         |

Only Matador offers the security and protection you need to ensure nothing happens to you and your home. This has also been tested by the following institutes:

Technisches Büro  
Institut für Brandschutztechnik  
und Sicherheitsforschung

**HFX STAINLESS  
FOR ROOF +  
FACADE**

www.roofinox.com

This evolution in roof and facade panels offers maximum protection against storms and wear. If you require extra safety and longevity, Matador offers you the ability to combine both beauty and function. Matador is the elegant and invincible panel for all weathers.

The elegant, straightforward shape is ideal for renovation, as it can be laid on slats or sheathing. Even less resilient constructions can be fitted thanks to the low weight. Further more HFX Stainless Steel goes well with all materials. The complete system with a full set of accessories allows the roof and facade to be constructed in one piece.

# Roofinox Matador

Roofinox Matador.
